fondation en béton

Technical cross-section diagram of a playground slide assembly. The diagram shows a slide structure with a synthetic fall protection (Fallschutz synthetisch) and a concrete foundation (Betonfundament). The slide is labeled 'Rutschbahn toboggan'. The ground surface is labeled 'Spielebene terrain de jeu'. Dimensions are indicated: 70 cm for the fall protection height, 500 cm for the foundation depth, and 300/450 cm for the foundation width.

Technical drawing of a building floor plan, showing a large hall with a central staircase and a smaller room. The drawing includes dimensions, room labels, and a note about the minimum impact surface.

Overall dimensions: 10000 (width) x 8000 (height).

Room labels and dimensions:

- H 1500 (Hall, top left)
- H 1800 (Hall, bottom right)
- H 1000 (Hall, bottom right)
- +1500 (Staircase, top left)
- +1800 (Staircase, bottom right)

Dimensions and annotations:

- 1940 (width of top left section)
- 1800 (height of top left section)
- 1250 (width of top left section)
- 3165 (width of top left section)
- 1250 (width of top left section)
- 410 (width of top left section)
- 540 (width of top left section)
- 710 (width of top left section)
- 1320 (width of top left section)
- 563 (width of top left section)
- 608 (width of top left section)
- 2000 (width of bottom right section)
- 2780 (width of bottom right section)
- 997 (width of bottom right section)
- 540 (width of bottom right section)
- 710 (width of bottom right section)
- 355 (width of bottom right section)

Note: min. Aufprallfläche / surface de chute min.
